

Captain is an amazing 3 year old Golden Retriever who had it hard for a while earlier this year. His previous owner ran him over by accident and was unable to pay to have him fixed. He suffered a broken femur and was left for 7 weeks until we stepped in and took responsibility for the dog. He had his leg fixed about 8 weeks ago and is doing great. He never once got down in the dumps or felt sorry for himself. Captain has always kept the awesome Golden attitude. Captain will make an amazing addition to any family.

UPDATE: April 2011. After recuperating from surgery to repair his broken leg, Captain has been adopted into his forever home! Many thanks to everyone who helped this special guy along the way.
