

Cheeto was one of 11 cats, 4 of which were kittens rescued from an abandoned house in Menifee. Cheeto and his brothers were 8 weeks old when we got them so they were a challenge as they had never had human contact.

Over the following 8 weeks they were placed in a foster home with dogs, other cats, and kids where they became the most trusting and loving kittens you could ever meet. Cheeto was the last to be placed but his new Mom and Dad were well worth the wait. Karin and Kris had just lost both of their young cats to an illness and were not sure if they were ready for another so soon. Well they met Cheeto and it was love at first sight! Cheeto, now Hugo, is so spoiled and loved it makes the work we do so very rewarding.
