

Due to a change in our family dynamics...I was on a hunt for a new family dog for me and the kids and also a friend for me since I am now a single parent. I was looking for another Staffordshire Bull Terrier...and found Molly on petfinder.com...made a phone call and got to meet Molly the same day.

Once we got to where Molly was and got to meet her, the kids instantly loved her and were anxious to take her home. The ladies that were taking care of Molly were God sent...they gave me a brief background on Molly...and wanted to ensure Molly was a perfect fit for us and vice versa. She is the best pet I have ever adopted. I feel it was fate that brought Molly and us together. I will be forever grateful to Tracey and Nina...Molly is a perfect fit for our family.

Thanks,
Jewel
